

**Academic Respiriologist
Department of Medicine,
Dalhousie University/Central Zone, Nova Scotia Health Authority**

The Department of Medicine, Dalhousie University/Central Zone, Nova Scotia Health Authority seeks applications for a position as an academic Respiriologist in the Division of Respiriology, at the QEII Health Sciences Centre, Halifax, Nova Scotia. Expertise in one of the following sub-specialty areas of Respiriology will be considered an asset: interventional; interstitial lung disease; sleep/home mechanical ventilation; and asthma. The Division of Respiriology is an integral part of the Department of Medicine and provides Respiriology services for the Central Zone of the Nova Scotia Health Authority.

The Division of Respiriology is one of 15 divisions within the Department of Medicine. In addition to playing an important clinical role in the Department, division members have excellent opportunities for collaborative educational (including Royal College accredited adult respirology training program) and research endeavours with protected time for scholarly activities to ensure rewarding, fulfilling career development.

An attractive remuneration and benefits package through an alternative funding plan will apply. Nova Scotia offers exceptional cultural and recreational opportunities in addition to a high quality of life.

Candidates must hold FRCPC certification (or equivalent) in Internal Medicine with subspecialty certification in Respiriology. Academic appointment ranking will be based on qualifications and experience.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Dalhousie University is an employment equity, affirmative action employer. The University encourages applications from qualified First Nations Peoples, persons with a disability, racially visible persons, and women. Interested applicants should forward their curriculum vitae and three references to:
